

INTENSE & PERSISTENT FLORAL AIR FRESHENER

D Highly concentrated droplet air freshener, specially formulated to eliminate bad odors in toilets, saunas, gyms, closed rooms, etc. Indicated for highly frequented places with poor ventilation where prolonged action is essential. After a fresh and exuberant entry, it ends with a highly persistent floral background.

D A pleasant ambient note provides a broad sense of cleanliness and disinfection.

D Check availability and packaging

Applications

Suitable for use in the food industry. Indispensable for setting in cafes, restaurants, bars, schools, toilets, stores and public places.

How to use

Shake before using.

Spray the pure product on the area to be deodorized, or pour a few drops in the corners.

To achieve an instant deodorizing effect, it can be sprayed directly into the environment.

Properties

Its high concentration of perfume immediately masks unpleasant odours, uniformly and lastingly maintaining a pleasant environment.

By having in its composition stabilizing agents that produce a gradual and constant evaporation of its aromatic elements, its air freshener effect lasts for a long time.

Due to its great performance, it is economical, since a few drops are enough to deodorize and freshen large surfaces. It is a product of great stability, which does not lose its properties after a long time of storage.

Characteristics

Physical appearance: Opaque pink liquid

Density: 0,99 gr/cc. aprox.

pH: 7 aprox.

Composition:

Complex mixture of aromatic essences, bioalcohol, glycols, water, emulsifiers and colorants.

Cautions

Not classified as dangerous according to CLP Regulation. Composition communicated to the Spanish National Toxicology Service. In case of accident, consult the Medical Toxicological Information Service, Telephone +0034 915 620 420.

Notes

Restricted to professional uses.

Keep container tightly closed and in a cool place.

Safety data sheets available to professional users.
