### **Applications**

Suitable for use in the food industry for manual dishwashing, glassware and cutlery as well as detergent-degreaser for general surface cleaning.

### **How to use**

**FOR CLEANING DISHES, PANS AND CUTLERY:** Simply add a small dose of product to a sponge moistened with water to achieve excellent cleaning by rubbing and then rinsing the utensils with drinking water. Rinse and dry hands after use. For prolonged use, it is recommended to wear gloves.

**FOR CLEANING AND DEGREASING OF ANY TYPE OF SURFACE:** Scrub with a cloth or mop with a solution of 4-5 ml of detergent per liter of water and rinse after use with water if necessary.

### **Properties**

It is a product formulated for cleaning different types of dirt, therefore, it has a high degreasing power and provides high foam during use. Does not leave strange odors or flavors on the pieces washed with it; avoiding, in this way, damaging the aroma and taste of the food cooked with them.

Its neutral pH, respects the skin of the hands and does not damage washed surfaces. It contains a synergic mixture of surfactants that reduce the surface tension of the water, preventing the formation of drops and facilitating draining and drying.

### **Characteristics**

**Physical appearance:** green viscous liquid

**Density:** 1,03 g/ml aprox.

**pH** (soltuted 1% in water): 7-8

### **Composition:**

Complex blend of anionic and non-ionic surfactants, skin protectants, citric acid, thickening electrolytes, preservatives and perfume.

### **Caution**

**ATTENTION.** Causes skin irritation. Causes serious eye damage. Composition communicated to the Spanish National Toxicology Service. In the event of an accident, consult the Toxicological Information Medical Service, Telephone +34 915 620 420.

### **Notes**

Restricted to professional users. Keep container tightly closed and in a cool place. Safety data sheets available to professional users.
