

EU Ecolabel ES-V/020/005

RESTRICTED TO PROFESSIONAL USES

GENERAL DEGREASER LOW ALKALINITY - Kitchens & Multisurface

- ✓ Degreasing cleaner that meets the criteria of the European ecological label, essential in cleaning the kitchen and all those surfaces where grease and dirt accumulate.
- ✓ Non-scented formulation with low alkalinity and efficiency guaranteed by specialized laboratories that allows its use on all types of surfaces.
- ✓ Suitable for use in the food industry for general cleaning and degreasing of surfaces.
- ✓ Ideal for places where harmony between cleanliness, health and respect for the environment is sought.

HOW TO USE:

Pure use for dry or burnt fat:

The method of use is to spray directly on the surfaces to be treated at a distance of 20 cm, leave to act for 5 minutes and remove with a damp cloth.

Diluted use for normal dirt:

For maintenance cleaning in kitchens, the appropriate proportion is 10%, with hot water the results are improved. If applied to aluminum surfaces, do not use hot water and rinse immediately with water.

An adequate dosage allows saving and reducing the environmental impact. Keep out of reach of children. Do not mix different cleaning products. Avoid inhaling vaporized product.
